There’s just something about a Kansas horizon. Seemingly endless and unmarked to the casual observer, a closer look reveals unique features in every direction that can serve as milestones along a journey. It is these milestones that remind travelers that they are, indeed, making progress toward their goal.

At the Sunflower Foundation, we view the work of those we support as a journey toward a healthier Kansas.

It is a challenge that is as vast as the Kansas horizons pictured on these pages, yet we see progress every day, thanks to the dedicated, passionate efforts of the health and community-based organizations whose professionals work to make a difference in the lives of their fellow Kansans.

In this report, we are proud to acknowledge the grants that we have awarded from July 1, 2004, through June 30, 2005 (FY 2005), and to share our stewardship accountability for the Sunflower Foundation assets. We also encourage you to visit our Web site regularly to stay informed about our work, www.sunflowerfoundation.org.

Thomas L. Miller
Board Chair

Billie G. Hall
President & CEO
At the Sunflower Foundation, our work is guided by our mission: to serve as a catalyst for improving the health of Kansans.

This is no small charge. Our expectations are high and we strive for change — directing our resources toward programs and policies that have the potential to effect lasting change in ways that improve health status and access to health care.

The following information is a summary of the Sunflower Foundation’s 2005 funding priorities and types of grants.

**ACCESS TO HEALTH CARE**
Improving access to affordable, quality health care for all Kansans, regardless of age, gender, ethnicity or geographic location.

**Bridge Grants** – Supporting expansion of primary care and primary prevention services in health care safety net organizations.

**Health Disparities** – Identifying and addressing racial and ethnic barriers that affect access to health care services.

**BUILDING CAPACITY**
Supporting efforts to help primary health and primary prevention organizations fulfill their missions through sound management, strong governance and dedication to assessing and achieving results.

**Assessment** – Supporting organizational assessment of key governance, management and operational issues.

**Organizational Development** – Improving organizational effectiveness, including management, finance, governance, technology, communications and leadership.

**SPECIAL EVENTS** – Sponsoring an annual educational development opportunity for Sunflower Foundation grantee organizations.

**HEALTHY BEHAVIORS AND PREVENTION**
Seeking solutions that help individuals and communities establish and maintain healthy and active lifestyles.

**Preventing Obesity** (emphasis on children and youth) – Promoting physical activity and healthy eating for children through environmental, program and policy approaches in schools and community settings.
**Worksite** – Increasing physical activity in the worksite through environmental and policy approaches.

**Walking Trails** – Supporting local efforts to enhance or build new trails in communities to increase physical activity.

**Reducing Disparities** – Reducing or eliminating the burden of disease and death due to chronic disease because of racial or ethnic disparities.

**Tobacco Control and Prevention** – Enhancing existing and developing new tobacco use prevention and control efforts in Kansas through a partnership with the American Legacy Foundation and the Kansas Department of Health and Environment.

**RESPONSIVE** Projects that reflect emerging issues and special opportunities for building awareness of health issues, collaboration and leveraging.

### FY 2005 GRANTS AND INITIATIVES

**ACCESS TO HEALTH CARE**

**Bridge Grants**

- Cloud County Health Center, Concordia – $100,000 to add a family practitioner (two-year grant)
